

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA- 2013-0191]

Qualification of Drivers; Exemption Applications; Diabetes Mellitus

AGENCY: Federal Motor Carrier Safety Administration (FMCSA).

ACTION: Notice of applications for exemption from the diabetes mellitus requirement; request for comments.

SUMMARY: FMCSA announces receipt of applications from 39 individuals for exemption from the prohibition against persons with insulin-treated diabetes mellitus (ITDM) operating commercial motor vehicles (CMVs) in interstate commerce. If granted, the exemptions would enable these individuals with ITDM to operate CMVs in interstate commerce.

DATES: Comments must be received on or before [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) Docket No. FMCSA-2013-0191 using any of the following methods:

- Federal eRulemaking Portal: Go to <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.
- Mail: Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue, S.E., West Building Ground Floor, Room W12-140, Washington, DC 20590-0001.

- Hand Delivery: West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue, S.E., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.
- Fax: 1-202-493-2251.

Instructions: Each submission must include the Agency name and the docket numbers for this notice. Note that all comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided. Please see the Privacy Act heading below for further information.

Docket: For access to the docket to read background documents or comments, go to <http://www.regulations.gov> at any time or Room W12-140 on the ground level of the West Building, 1200 New Jersey Avenue, S.E., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Federal Docket Management System (FDMS) is available 24 hours each day, 365 days each year. If you want acknowledgment that we received your comments, please include a self-addressed, stamped envelope or postcard or print the acknowledgement page that appears after submitting comments on-line.

Privacy Act: Anyone may search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or of the person signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's Privacy Act Statement for the Federal Docket Management System (FDMS) published in the Federal Register on January 17, 2008 (73 FR 3316).

FOR FURTHER INFORMATION CONTACT: Elaine M. Papp, Chief, Medical Programs Division, (202) 366-4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue, S.E., Room W64-224, Washington, DC 20590-0001. Office hours are from 8:30 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the Federal Motor Carrier Safety Regulations for a 2-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.” The statute also allows the Agency to renew exemptions at the end of the 2-year period. The 39 individuals listed in this notice have recently requested such an exemption from the diabetes prohibition in 49 CFR 391.41(b) (3), which applies to drivers of CMVs in interstate commerce. Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by statute.

QUALIFICATIONS OF APPLICANTS

Ryan P. Abrahamsen

Mr. Abrahamsen, 24, has had ITDM since 1996. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist

certifies that Mr. Abrahamsen understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Abrahamsen meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class D operator's license from New York.

Dylan J. Bryan

Mr. Bryan, 21, has had ITDM since 2012. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Bryan understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Bryan meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class D operator's license from Illinois.

Robert A. Collins

Mr. Collins, 55, has had ITDM since 2013. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Collins understands diabetes management and monitoring, has stable

control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Collins meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from New Jersey.

Fred J. Combs

Mr. Combs, 60, has had ITDM since 1969. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Combs understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Combs meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2013 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class B CDL from Ohio.

Edward DeFrancesco

Mr. DeFrancesco, 36, has had ITDM since 2012. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. DeFrancesco understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr.

DeFrancesco meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Connecticut.

Terrance J. Dusharm

Mr. Dusharm, 55, has had ITDM since 2012. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Dusharm understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Dusharm meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Minnesota.

Jonathan W. Eggers

Mr. Eggers, 27, has had ITDM since 2013. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Eggers understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Eggers meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class B CDL from Minnesota.

John L. Eversole

Mr. Eversole, 65, has had ITDM since 2012. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Eversole understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Eversole meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Wyoming.

Gilbert N. Fugate

Mr. Fugate, 60, has had ITDM since 2010. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Fugate understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Fugate meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class operator's license from Indiana.

Scott C. Garbiel

Mr. Garbiel, 45, has had ITDM since 2006. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Garbiel understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Garbiel meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class B CDL from Maine.

Charles D. Grant

Mr. Grant, 32, has had ITDM since 2012. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Grant understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Grant meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class C operator's license from Georgia.

William F. Hamann

Mr. Hamann, 36, has had ITDM since 2000. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Hamann understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Hamann meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class D operator's license from Kentucky.

Dallis L. Hollon

Mr. Hollon, 60, has had ITDM since 2007. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Hollon understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Hollon meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Kansas.

James H. Howard, Jr.

Mr. Howard, 55, has had ITDM since 2012. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Howard understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Howard meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Florida.

Harry R. Jaycox

Mr. Jaycox, 44, has had ITDM since 2013. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Jaycox understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Jaycox meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Indiana.

Jerry J. Klosterman

Mr. Klosterman, 63, has had ITDM since 2006. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Klosterman understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Klosterman meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2013 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class B CDL from Ohio.

Joseph E. Kolb

Mr. Kolb, 53, has had ITDM since 2011. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Kolb understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Kolb meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from New York.

Matthew D. Lee

Mr. Lee, 35, has had ITDM since 2003. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Lee understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Lee meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds an operator's license from Virginia.

Craig A. Lemponen

Mr. Lemponen, 48, has had ITDM since 2012. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Lemponen understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Lemponen meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class B CDL from Ohio.

Matthew P. Ludwig

Mr. Ludwig, 46, has had ITDM since 2007. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Ludwig understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Ludwig meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2013 and certified that he has stable nonproliferative diabetic retinopathy. He holds a Class A CDL from New York.

Gerry A. Lutz

Mr. Lutz, 53, has had ITDM since 2007. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Lutz understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Lutz meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Iowa.

Joel S. Malone

Mr. Malone, 44, has had ITDM since 1976. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Malone understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Malone meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2013 and certified that he has stable proliferative diabetic retinopathy. He holds a Class E operator's license from Louisiana.

Keith B. Masters

Mr. Masters, 58, has had ITDM since 2008. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Masters understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Masters meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His

ophthalmologist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from New Hampshire.

Eli J. Meekhof

Mr. Meekhof, 26, has had ITDM since 1998. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Meekhof understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Meekhof meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Michigan.

Arthur S. Miller

Mr. Miller, 55, has had ITDM since 2012. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Miller understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Miller meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class D operator's license from Tennessee.

Jeffrey A. Olson

Mr. Olson, 30, has had ITDM since 1985. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Olson understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Olson meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Iowa.

Marvin H. Patterson, III

Mr. Patterson, 39, has had ITDM since 2003. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Patterson understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Patterson meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His

ophthalmologist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from South Carolina.

Brandon C. Rhinehart

Mr. Rhinehart, 33, has had ITDM since 2010. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Rhinehart understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Rhinehart meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Maryland.

Thomas L. Rice

Mr. Rice, 58, has had ITDM since 2007. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Rice understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Rice meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Tennessee.

Ismael Romero

Mr. Romero, 46, has had ITDM since 2009. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Romero understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Romero meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from New Jersey.

Timothy J. Sebald

Mr. Sebald, 21, has had ITDM since 2005. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Sebald understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Sebald meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds an operator's license from Indiana.

Erick D. Selgren

Mr. Selgren, 55, has had ITDM since 1981. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Selgren understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Selgren meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2013 and certified that he stable nonproliferative diabetic retinopathy. He holds a Class R operator's license from Colorado.

Donald R. Sine, Jr.

Mr. Sine, 58, has had ITDM since 2005. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Sine understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Sine meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Indiana.

Dennis E. Taunton

Mr. Taunton, 64, has had ITDM since 2013. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Taunton understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Taunton meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Idaho.

Phillip A. Trent

Mr. Trent, 50, has had ITDM since 2011. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Trent understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Trent meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Virginia.

Robert B. Trofa, III

Mr. Trofa, 44, has had ITDM since 1987. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Trofa understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Trofa meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class C operator's license from Pennsylvania.

Deborah D. Watson

Ms. Watson, 58, has had ITDM since 1998. Her endocrinologist examined her in 2013 and certified that she has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. Her endocrinologist certifies that Ms. Watson understands diabetes management and monitoring, has stable control of her diabetes using insulin, and is able to drive a CMV safely. Ms. Watson meets the requirements of the vision standard at 49 CFR 391.41(b)(10). Her

ophthalmologist examined her in 2013 and certified that she does not have diabetic retinopathy. She holds a Class A CDL from Michigan.

Ronnie C. Webb

Mr. Webb, 64, has had ITDM since 2012. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Webb understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Webb meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Montana.

Allan D. Wesley

Mr. Wesley, 51, has had ITDM since 2012. His endocrinologist examined him in 2013 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Wesley understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Wesley meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His optometrist

examined him in 2013 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Wisconsin.

Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315, FMCSA requests public comment from all interested persons on the exemption petitions described in this notice. We will consider all comments received before the close of business on the closing date indicated in the date section of the notice.

FMCSA notes that section 4129 of the Safe, Accountable, Flexible and Efficient Transportation Equity Act: A Legacy for Users requires the Secretary to revise its diabetes exemption program established on September 3, 2003 (68 FR 52441)¹. The revision must provide for individual assessment of drivers with diabetes mellitus, and be consistent with the criteria described in section 4018 of the Transportation Equity Act for the 21st Century (49 U.S.C. 31305).

Section 4129 requires: (1) Elimination of the requirement for 3 years of experience operating CMVs while being treated with insulin; and (2) establishment of a specified minimum period of insulin use to demonstrate stable control of diabetes before being allowed to operate a CMV.

In response to section 4129, FMCSA made immediate revisions to the diabetes exemption program established by the September 3, 2003 notice. FMCSA discontinued use of the 3-year driving experience and fulfilled the requirements of section 4129 while

¹ Section 4129(a) refers to the 2003 notice as a “final rule.” However, the 2003 notice did not issue a “final rule” but did establish the procedures and standards for issuing exemptions for drivers with ITDM.

continuing to ensure that operation of CMVs by drivers with ITDM will achieve the requisite level of safety required of all exemptions granted under 49 USC. 31136 (e).

Section 4129(d) also directed FMCSA to ensure that drivers of CMVs with ITDM are not held to a higher standard than other drivers, with the exception of limited operating, monitoring and medical requirements that are deemed medically necessary.

The FMCSA concluded that all of the operating, monitoring and medical requirements set out in the September 3, 2003 notice, except as modified, were in compliance with section 4129(d). Therefore, all of the requirements set out in the September 3, 2003 notice, except as modified by the notice in the Federal Register on November 8, 2005 (70 FR 67777), remain in effect.

Submitting Comments

You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an e-mail address, or a phone number in the body of your document so that FMCSA can contact you if there are questions regarding your submission.

To submit your comment online, go to <http://www.regulations.gov> and in the search box insert the docket number FMCSA-2013-0191 and click the search button. When the new screen appears, click on the blue “Comment Now!” button on the right hand side of the page. On the new page, enter information required including the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying

and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope.

We will consider all comments and material received during the comment period and may change this proposed rule based on your comments. FMCSA may issue a final rule at any time after the close of the comment period.

Viewing Comments and Documents

To view comments, as well as any documents mentioned in this preamble, To submit your comment online, go to <http://www.regulations.gov> and in the search box insert the docket number FMCSA-2013-0191 and click “Search.” Next, click “Open Docket Folder” and you will find all documents and comments related to the proposed rulemaking.

Issued on: November 1, 2013.
